

From Master Bobi : ISOPTIKs Customers Group

98% of ISOPTIK : The Hi-End Eyeglasses Centres customers are at executive level and / or are specialists from all around the world. These customers wish for the best quality of their visibility for the highest brain efficiency like they were teens again.

ISOPTIKs eyeglasses are beneficial for the eyes and brains. It provides clarity, best visibility with comfort leading to high efficiency of the work which further results in earning higher income. Many customers have said the glasses has helped them work better and more comfortable which helps them become richer and happier.

PTA measurement

Especially doctors, I feel that the lives of the sick lie in the sight of the doctors. If doctors are able to maintain their visibility at the highest quality, they can provide best performances in surgical procedures to help the patients. Most doctors retire from complicated surgical procedures because of their invisibility issues. How amazing would it be if doctors with heaps of experience could go back into helping patients again with confidence even though it may be hours-long surgery. ISOPTIKs Ultra Individual Digital 3 D Progressive Eyeglasses has solved this issue far more than 10 years.
